tion and demonstration in massage will

**The McLeod Elevator.**

The new elevator of the A. H. McLeod  
Milling Co., is now practically completed  
and is admirably adapted to their ex-  
tensive business. The elevator occupies  
the site of the two buildings which were  
destroyed by fire last May. The new  
structure is of wood and rests on 25  
pillars, with a foundation of solid ma-  
sonry. It is 60x82 feet and five stories  
height, with basement, making six floors  
with an available floor space of 29,000  
feet. The roof and cornices are of gal-  
vanized iron. The elevator has a capac-  
ity of 2000 tons or about 135 carloads.

The inside arrangement is simple, each  
floor contains a single room, the  
floor of each story being supported by  
heavy pillars.

The building is equipped with a Morse  
& Williams improved elevator of two  
tons capacity, power for the elevator being  
transmitted from the mill by a rope  
belt. The entire basement will be used  
for the storage of bran; the first floor  
for grain and flour in sacks; the second  
floor for flour in barrels, and the remain-  
ing space for the large stock of grain and  
feed which the company carry.

In the construction of the building  
there was used 240,000 feet of lumber  
and about eight tons of iron and steel.  
The extreme height of the building is 55  
feet, the distance from the ground to the  
top of the flag pole being 96 feet and 7  
inches. The building is lighted through-  
out by electricity. After several months  
of conducting so large a business at a  
great disadvantage in the matter of  
storage room the company are to be con-  
gratulated upon the completion of a  
building which will add so much to the  
convenience of their plant.

**Anniversary Sermon.**

Rev. A. C. Hussey delivered his second  
anniversary sermon at the First Baptist  
church Sunday morning. The discourse  
was interesting and inspiring.

The figures given show that \$950 have  
been paid for the current expenses of the  
church, \$450 in repairs and refreshments  
and \$65 for benevolent objects, making a  
total of \$1465. Of this amount the  
church owes about \$100.

In the two years past \$800 have been  
expended on the church buildings and  
surroundings.

The church membership has increased  
ten in the past year and there has been a  
gradual advance along all lines of Chris-  
tian life and service. In the last year the  
pastor has officiated at eight funerals  
and four weddings—in both years of his  
pastorate, at 15 funerals and 16 wed-  
dings. During the last year he has made  
561 pastoral calls, preached 75 sermons,  
given 25 Sunday evening Bible talks and  
attended 60 devotional meetings, besides  
giving several sermons and addresses  
outside his parish work.

rate member of the order.

The annual meeting of the Grand  
Lodge Knights of Pythias of Vermont  
and the annual field day of the Uniform  
Rank, K. P., will be held at Burlington  
Wednesday and Thursday of this week.  
The exercises of the Uniform Rank will  
be held Wednesday and the sessions of  
the Grand Lodge Thursday. Quite a  
party from Apollo Lodge, No. 2, will  
attend the meeting.

Articles of incorporation have been  
filed with the secretary of state for the  
Odd Fellows' Building Association of  
Ludlow, with a capital stock of \$12,000.  
The company have bought the house and  
lot of Dr. C. H. Bonny on Main street,  
and will move the house to the rear of  
the lot, facing the house to the west, and  
build a three story brick block where the house  
now stands.

Among the grand officers present at  
the laying of the corner stone of the new  
public library and masonic building pre-  
sented to the town of Guildhall last  
week by Col. E. C. Benton of Boston,  
was D. M. Bacon as K. W. D. G. M.

The Vermont field workers of the Modern

ton last week. On one of the even-  
ings the public meeting was addressed

Emerson attended the annual meeting of  
the Grand Council J. O. U. A. M. at  
Montpelier last week Wednesday as rep-  
resentatives of Gen. Logan Council No.

Frank D. Hill, Grand Warden, and S. S.  
Emerson, Grand Inside Sentinel. In  
membership both locally and throughout  
the state.

D. G. P. J. C. Strong of Bradford will  
make an official visit to Moose River En-  
campment on Friday evening of this  
week and witness the conferring of the  
work on five candidates. A banquet will  
be served.

**The New Dam.**

The new dam on the water privilege  
opposite the depot controlled by the  
First National Bank was completed last  
week. The structure belongs to the  
class known as "roll dams," and is one  
of the most thoroughly constructed  
pieces of work of the kind in this section.

The dam is 196 feet in length and  
about ten feet high and contains 200,  
000 feet of lumber and 200 cords o  
stone. It cost about \$6,000. It is  
located just below the old dam and its  
position required the construction of  
quite an extensive addition to the side  
wall of the old dam.

The work was done by E. C. Waite of  
Hartford, an expert on such construc-  
tions. Mr. Waite had with him a corps  
of river drivers and men trained in the  
work and the skill of these men in  
handling the most difficult parts of the  
work with ease held the attention of all  
visitors while the dam was under con-  
struction.

The new dam replaces a structure  
which was built about fifty years ago at  
the time the railroad was extended to  
St. Johnsbury and the tide of business  
began to set toward that portion of the  
town. The old dam has during that  
time undergone extensive repairs but for  
the last few years it has been considered  
unsafe. This improvement greatly en-  
hances the value of the property as a  
water power and gives needed power to  
the industries for which it was built.

**"Two Jolly Companions."**

Of the many fine attractions that  
Manager Black has booked for the Howe  
Opera House this season none are better  
known than "The Two Jolly Com-  
panions" Company, which will be presented  
next Saturday evening. Pure, unadul-  
terated fun, laughable situations and the  
essence of wit and repartee interwoven  
in the dialogue is what the author, Frank  
Dumont has supplied as material for the  
two stars, the Messrs. German, the ac-  
knowledgeed Terpsichorean kings. Man-  
ager Gray has displayed rare judgment in  
selecting his supporting cast with the re-  
sult that one of the most enjoyable en-  
tertainments of the season will be wit-  
nessed by the local theatregoers during  
this engagement.

## Church Notes.

ciety of Grace Methodist church will
